Report of Independent Auditors

The Board of Trustees
Morehouse School of Medicine, Inc. and Affiliate

We have audited the accompanying consolidated balance sheets of Morehouse School of Medicine, Inc. and Affiliate (the School) as of June 30, 2008 and 2007, and the related consolidated statements of activities and changes in net assets, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the School's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the School's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards, Schedule of State of Georgia Awards Expended, and Statement of State of Georgia Award Revenues and Expenditures Compared to Budgets are not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*. The Schedule of State of Georgia Awards Expended and the Statement of State of Georgia Award Revenues and Expenditures Compared to Budgets are required by the Georgia Department of Human Resources Directive PRO 1244, *External Entities Audit Standards*. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements

June 30, 2008

1. Organization

The accompanying consolidated financial statements reflect the consolidated accounts and activity of Morehouse School of Medicine, Inc. (the School) and its affiliate, Morehouse Medical Associates, Inc. (MMA) (collectively, MSM and Affiliate), in accordance with the American Institute of Certified Public Accountants Statement of Position 94-3, *Reporting of Related Entities by Not-for-Profit Organizations*. All significant intercompany transactions have been eliminated. The School, founded in Atlanta, Georgia, in 1974, focuses on the training of minority students for careers as primary care physicians in an effort to address the needs of residents in medically underserved areas of the nation. The School is a four-year M.D., Ph.D. and M.P.H. degree-granting institution. MMA was incorporated in August 1985, and commenced operations in September of the same year in Atlanta, Georgia. MMA was established by the full-time faculty physicians of the School. The goals and objectives of MMA include providing medical care to the sick regardless of their ability to pay for services; engaging in medical research; furthering the charitable, scientific, and educational purposes of the School; supporting the clinical teaching programs of the School; and providing teaching services to medical students at the School and to graduates of medical schools who are in postgraduate training programs. Neither the School nor MMA owns a large medical center. The School utilizes the facilities of certain other health care organizations for its core clinical instruction.

The School receives significant support (direct and indirect) from the federal government in the form of research funding, student financial aid, and other financial assistance. Revenues and accounts receivable from the federal government were approximately 56% and 35%, respectively, in 2008, and 53% and 30%, respectively, in 2007. Revenues and accounts receivable from the state government were approximately 12% and 1%, respectively, in 2008 and 11% and 1%, respectively, in 2007. Noncompliance with certain laws and regulations could result in exclusion from participating in federal and state award programs and/or repayment of previously reimbursed expenditures. Management believes that any noncompliance by the School will not have a material impact on amounts to be received from other programs awarded by the federal government.

2. Summary of Significant Accounting Policies

The consolidated financial statements have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles. The significant accounting and reporting policies followed in the preparation of these consolidated financial statements are described below.

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the consolidated financial statements, the School considers all highly liquid investments with an original maturity of 90 days or less when purchased to be cash equivalents. At various times throughout the year, the School may have cash balances in financial institutions which exceed the amounts that are federally insured.

Accounts Receivable

Accounts receivable consists primarily of grants receivable, contracts receivable and receivables related to residency services performed at state and area hospitals, Georgia Appropriation funds and Disproportionate Share funds. Grants and contracts receivable represent amounts due to the School for expenditures relating to sponsored research awards, principally from the U.S. Government. The School determines the allowance based on historical write-off experience. Account balances are charged-off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The amount recorded represents the estimated net realizable value.

Pledges Receivable

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of the estimated future cash flows. The discounts on these amounts are computed using a risk free interest rate applicable to the year in which the unconditional promise is received. Amortization of the discounts is included in contribution revenue. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and are reported in the consolidated statements of activities and changes in

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted private gifts, grants, and contracts in the consolidated financial statements. Conditional promises to give are not recorded as pledges receivable until such time as the conditions are substantially met.

Loans Receivable

Loans receivable consists primarily of funds advanced to students under Title IV federally-funded student financial assistance programs, including the Perkins Loan and the Health Professions Student Loan Programs.

Investments

Investments in equity securities with readily determinable fair values and debt securities are recorded at their fair values. Fair value is determined from quoted market prices or market prices of similar instruments. Gifts are recorded at fair value at the date of donation or a nominal value if fair value is not readily determinable. Net gains and losses on the sale of investments are reported in the consolidated statements of activities and changes in net assets in the appropriate net asset classification.

Investment income and net appreciation (depreciation) on investments of donor-restricted contributions, whether permanently or temporarily restricted, are reported as follows:

- As increases in permanently restricted net assets if the terms of the gift require that they be added back to the principal of the permanently restricted contributions.
- As increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on the current use of the investment income or net appreciation (depreciation).
- As increases (decreases) in unrestricted net assets in all other cases.

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Property and Equipment

Land, buildings, books, and equipment are recorded at cost at the date of acquisition or fair value at the date of donation in the case of gifts.

Depreciation of property and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis, using a half-year convention. A summary of depreciable lives is as follows:

| | |
|--------------------------|---------------|
| Buildings and components | 5 to 50 years |
| Equipment | 5 to 20 years |
| Books | 5 years |

Net Assets

The School's net assets and its revenues, expenditures, gains and losses are classified based on the existence or absence of donor-imposed restrictions using the following classifications:

Unrestricted net assets result from revenues that were not restricted by donors or the donor-imposed restrictions have expired; as well as capital assets purchased with temporarily restricted income or the income from permanently restricted revenues where the satisfaction of donor stipulations were satisfied when the assets were placed into service.

Temporarily restricted net assets include gifts, pledges receivable, and earnings from permanently restricted net assets that have been restricted by donors until a specific time period has expired or for a certain purpose or program. When the time period has expired or the related purpose or program is accomplished, whether by use of temporarily restricted net assets or unrestricted net assets, if both are available, the temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the consolidated statements of activities and changes in net assets as net assets released from restriction.

Permanently restricted net assets include gifts and pledges receivable which are required by donor stipulation to be invested in perpetuity, with the income to be used for restricted or unrestricted purposes. Permanently restricted net assets also include gifts restricted by donors in perpetuity for use in making loans.

Morehouse School of Medicine, Inc. and Affiliate
Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Revenue Recognition

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. MMA believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing that would have a material effect on the consolidated financial statements. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Reclassifications

Certain amounts in the 2007 financial statements have been reclassified to conform to the 2008 presentation. These reclassifications did not result in any changes to net assets.

Recent Accounting Pronouncements

In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* (FAS 157), to provide enhanced guidance when using fair value to measure assets and liabilities. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 applies whenever other pronouncements require or permit assets or liabilities to be measured at fair value and, while not requiring new fair value measurements, may change current practices. FAS 157 is effective for the School beginning in fiscal year 2009. The School does not expect adoption of this statement to have a material effect on its consolidated financial statements.

In February 2007, the FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (FAS 159). FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in the statement of activities and changes in net assets at each subsequent reporting date. FAS 159 is effective for the School beginning in fiscal year 2009. The School does not expect adoption of this statement to have a material effect on its consolidated financial statements.

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In August 2008, the FASB issued FASB Staff Position FAS No. 117-1, Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds (FSP FAS 117-1). FSP FAS 117-1 provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). UPMIFA is a model act approv

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

9. Borrowings Under Line of Credit Arrangements

At June 30, 2008, the School has a line of credit with a bank for \$5,000,000. The line of credit bears interest at the 30-day London InterBank Offered Rate (LIBOR) plus .75% adjusted monthly and ends on March 29, 2009. At June 30, 2008 and 2007, amounts outstanding under the line of credit totaled \$2,438,000.

10. Long-Term Debt Payable

Note Payable

On February 28, 2005, the School executed a \$6,800,000 five-year note agreement. The note bears interest at 30-day LIBOR plus 1% (3.45% at June 30, 2008, and 6.32% at June 30, 2007). The note is secured by certain endowed and restricted investments of the School. The note has a variable payment schedule consisting of 19 consecutive quarterly principal payments of \$85,000, plus accrued interest, payable on the 28th of each quarter, beginning May 28, 2005, and a final balloon principal payment of \$5,185,000 due and payable on February 28, 2010. At June 30, 2008, the outstanding note totaled \$5,695,000. Interest incurred and paid during the year totaled \$329,000 for the year ending June 30, 2008.

Bonds Payable

On February 11, 1998, the Development Aut

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

10. Bonds Payable (continued)

\$19,000 in 2008 and 2007, respectively. The letter of credit is secured by (a) all pledged bonds, (b) all income, earnings, profits, interest, premium, or other payments in respect to the pledged bonds, and (c) all cash and noncash proceeds arising out of the sale, exchange, collection, enforcement, or other disposition of the pledged bonds.

The Bonds are subject to mandatory redemption commencing on February 1, 2004, and each year thereafter through 2018. Mandatory redemption amounts are as follows:

| | <u>Annual Redemption Amount</u> |
|------------|---|
| 2009 | \$ 350,000 |
| 2010 | 400,000 |
| 2011 | 450,000 |
| 2012 | 450,000 |
| 2013 | 450,000 |
| Thereafter | <u>2,700,000</u> |
| Total | <u>\$ 4,800,000</u> |

Among other restrictions, the loan agreement requires the School to maintain a minimum debt service ratio, as defined by the agreement. The School was in compliance with the debt service ratio at June 30, 2008 and 2007.

Interest expense incurred and paid by the School related to the Bonds was approximately \$152,000 in 2008 and \$187,000 in 2007.

11. Perkins Loan Fund and Health Professions Student Loan Fund

The School maintains the Health Professions Student Loan Fund and the Perkins Loan Fund. Ninety percent of these funds are to be returned to the federal government upon liquidation of the funds. Accordingly, these amounts have been reflected as government advances for student loans on the accompanying consolidated balance sheets.

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

12. Retirement Plans

The School has two contributory retirement plans with Teachers' Insurance and Annuity Association and College Retirement Equities Fund which cover substantially all full-time academic and certain other salaried employees. Employees of MSM and Affiliate who work in excess of 20 hours per week and have completed three months of service are eligible to participate in the School's retirement plans. MSM and Affiliate contributed \$3,446,000 and \$3,542,000 to the plans in 2008 and 2007, respectively.

Morehouse School of Medicine, Inc. and Affiliate
Notes to Consolidated Financial Statements (continued)

Morehouse School of Medicine, Inc. and Affiliate

Notes to Consolidated Financial Statements (continued)

17. Contingencies

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigations of health care providers. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

The School's federal programs are subject to financial and compliance audits by grantor agencies which, if instances of material noncompliance are found, may result in disallowed expenditures and affect the School's continued participation in specific programs. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the School expects such amounts, if any, to be immaterial.

Matching Requirements

The School is obligated, under various grant agreements, to match contributions of applicable grantors. In management's opinion, the School has adequate resources and plans to meet these matching requirements in the stipulated period of the grants.

Litigation

The School is subject to legal actions arising in the ordinary course of its business. In management's opinion, the School has adequate legal defenses and insurance coverage with respect to the eventuality of such actions, and management does not believe that any settlement would materially affect the School's operations or financial position.

18. Subsequent Events

While management is not aware of any significant impact on their investment portfolio which would require disclosure, given market conditions and recent events affecting the domestic and global financial markets, there is the possibility that the value of certain investments held by the School could be adversely affected.

Notes to the Schedule of Expenditures of Federal Awards (continued)

Report on Internal Control Over Financial Reporting and on Compliance and Other
Matters Based on an Audit of the Financial Statements Performed in Accordance
With *Government Auditing Standards*

The Board of Trustees

Compliance and other matters

As part of obtaining reasonable assurance about whether the School's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the board of trustees, management, others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Ernst + Young LLP

November 11, 2008

Report on Compliance with Requirements Applicable to Each Major Program and
on Internal Control Over Compliance In Accordance With OMB Circular A-133

The Board of Trustees
Morehouse School of Medicine, Inc. and Affiliate

Compliance

purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the board of trustees, management, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings and Questioned Costs

For the Year Ended June 30, 2008

Part I—Summary of auditor’s results

Financial statements section

Type of auditor’s report issued (unqualified, qualified, adverse or disclaimer):

Unqualified

Internal control over financial reporting:

Material weakness(es) identified?

_____ **Yes** X **No**

Significant deficiency(ies) identified that are not considered to be material weaknesses?

_____ **Yes** X **None reported**

Noncompliance material to financial statements noted?

_____ **Yes** X **No**

Federal awards section

Internal control over major programs:

Material weakness(es) identified?

_____ **Yes** X **No**

Significant deficiency(ies) identified that are not considered to be material weaknesses?

_____ **Yes** X **None reported**

Type of auditor’s report issued on compliance for major programs (unqualified, qualified, adverse or disclaimer):

Unqualified

Any audit findings disclosed that are required to be reported in accordance with section .510(a) of OMB Circular A-133?

_____ **Yes** X **No**

Morehouse School of Medicine, Inc. and Affiliate

Morehouse School of Medicine, Inc. and Affiliate

Schedule of Findings and Questioned Costs (continued)

Part II—Financial Statement Findings Section

This section identifies the reportable conditions, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the financial statements for which *Government Auditing Standards* require reporting in a Circular A-133 audit.

No financial statement findings noted.
